Declaration

Gas consumption for chemical reduction, electrolytic and metallurgical processes

The undersigned gas consumer hereby declares that

- The gas consumed at the supply address specified in this declaration is used for chemical reduction and/or electrolytic processes and/or metallurgical processes.
- The administration is organized in such a way that all business transactions relevant to energy tax are clearly recorded.
- Any changes in circumstances affecting the application of energy tax rates will be reported immediately in writing to the supplier.

Options (please tick one and complete):

☐ I use the natural gas at the connection below **exclusively for exempt purposes**, as defined in Article 64, paragraph 4 of the Environmental Taxes Act.

☐ I use the natural gas at the connection below **for both exempt and taxable purposes**. This declaration applies to an (estimated) annual consumption of _____ m^3 = 100%. Expected portion of annual consumption used for exempt purposes: _____ m^3 = _____ % of total consumption.

Note: This percentage will be applied to your energy tax exemption. If the actual gas consumption qualifying for exemption differs from the estimated percentage, a correction will be applied to the balance volume.
