Declaration

for CNG filling station

On the basis of Article 21, paragraph 1 of the Implementation Decree on Environmental Taxes, the consumer requests the supplier to apply the fixed energy tax tariff for the supply of natural gas. The undersigned declares that the product consumed is used for a CNG filling station as defined in Article 47, paragraph 1(s) of the Environmental Taxes Act. The tariff for the Renewable Energy Storage Act is set to zero under Article 2, paragraph 2.

The consumer hereby declares

1. That the natural gas is consumed in a facility where natural gas is exclusively compressed into CNG, as defined in Article 47, paragraph 1(s), in conjunction with Article 47, paragraph 1(r) of the Environmental Taxes Act.
2. That the administration is organized in such a way that all business transactions relevant to this exemption are clearly recorded.
3. That any changes in circumstances affecting the application of the energy tax exemption will be reported immediately to the supplier.

Further explanation can be found in section 7.2.18 of the Environmental Taxes Handbook, published on the Tax Authority's website.

Explanation of this declaration

This declaration is valid indefinitely, or until the consumer informs the supplier in writing that the situation has changed. If the consumer submits an incorrect declaration or fails to withdraw the declaration when circumstances change that affect energy tax liability, the supplier cannot be held responsible for the consequences.

If inspections by the Tax Authority or otherwise reveal that, based on this declaration, the supplier has failed to remit energy tax, the Tax Authority may directly levy the unpaid energy tax from the consumer.

If the Tax Authority levies the supplier instead, the supplier or its legal successor will charge the unpaid tax, including any fines and/or damages incurred, to the consumer. The consumer declares to pay this total amount directly to the supplier. It is therefore essential that any changes affecting tax liability are immediately reported to the supplier.
